## Product Specifications

# Slimline™ Hydroxyl Unit

The Slimline™ hydroxyl unit is designed for smaller spaces where a portable or wall mounted unit is sought. It is ideal for offices and schools, senior living, conference and waiting rooms, and other commercial applications that are seeking to sanitize and deodorize indoor spaces.

The table below summarizes the minimum treatment area in the absence of ventilation, and the treatment area range under typical operating conditions: 3 air changes per hour, 90% recirculated air, and 9 foot (2.7 m) ceilings. These guidelines should be adhered to for optimal performance and safety.
